

Instalação npm/node

Etapa 1

baixe e instale o node

no seguinte link: <https://nodejs.org/en/>

Etapa 2

valide o node e o npm através do terminal ex: prompt de comando, git bash, powershell
(teste em todos os terminais citados para saber qual deles está funcionando o node/npm)

A screenshot of a Windows Command Prompt window titled 'Prompt de Comando'. The window has a black background and white text. The text shows the following commands and their outputs: 'C:\Users\DELL>node -v' followed by 'v14.16.1', 'C:\Users\DELL>npm -v' followed by '7.9.0', and 'C:\Users\DELL>' on the next line. The window has standard Windows window controls (minimize, maximize, close) in the top right corner.

```
C:\Users\DELL>node -v
v14.16.1

C:\Users\DELL>npm -v
7.9.0

C:\Users\DELL>
```

para testar se o node esta instalado digite o seguinte comando:

node -v

para testar se o node esta instalado digite o seguinte comando:

npm -v
